# NEW PERSPECTIVES ON SCANDINAVIAN DESIGN

MUUTO

# NEW PERSPECTIVES ON SCANDINAVIAN DESIGN

Muuto is rooted in the Scandinavian design tradition characterized by enduring aesthetics, functionality, craftsmanship and an honest expression.

By expanding this heritage with forward-looking materials, techniques and bold creative thinking, our ambition is to deliver new perspectives on Scandinavian design.

In fact our name, Muuto, comes from *muutos*, meaning new perspective in Finnish. We handpick leading contemporary designers who are strong interpreters of our philosophy and combine their talents with the passionate Muuto creative team.

You will know our design because it has muutos: objects made sublime through new perspectives, enjoyed across the world, representing the best of Scandinavian design today.

The Post Wall Lamp brings an innovative character to modern lighting through its graphic expression, forward-thinking functionalities and refined finish

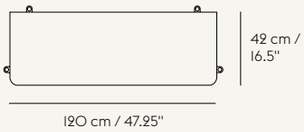
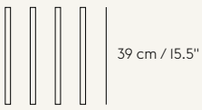
**Shelf**



**Dividers**

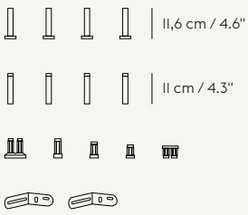
**Large**



**Medium**

**Small**

**Essentials Pack**



**READY-TO-SHIP OPTIONS**

Grey Black White

**MATERIAL**
Powder coated steel

**MADE-TO-ORDER OPTIONS**
Build personalized systems by assembling shelves with 3 sizes of dividers or choose between 8 prearranged configurations

WEIGHT & HEIGHT RECOMMENDATIONS
The Compile Shelving System should always be mounted to a wall using wall brackets (included in the essentials pack). A Compile Shelving System can hold up to 300 kg / 661 lb. The Compile Shelving Systems can be built as tall as wanted, as long as it is mounted to the wall using wall brackets. Muuto recommends not building configurations higher than 2,25 m / 88.5"

## ENFOLD SIDEBOARD
by Thomas Bentzen

Please note that Tile Cushion is not available for sale in North America

# QUALITY & ENVIRONMENT

## CRAFTING HIGH-QUALITY DESIGN

### MODERN MATERIALITY

Our products are designed to last through long-lasting expressions and high-quality production, factors that in themselves ease our impact on the environment. Working from an ambition to create new perspectives on Scandinavian design, we're motivated to work with innovative materials that lessen the burden on our planet. Take the Restore Series and Under The Bell Pendant Lamp, both made using recycled PET bottle fibers as well as our Fiber Chair Family, created with an innovative shell with up to 25% pine wood fibers. Adding to that, all wooden parts within the Fiber, Nerd and Visu Chair Series are made in an environmentally friendly, water-based lacquer. Being a Scandinavian design company, wood appears in many of our designs with oak, beech, pine and ash being the most common types, all of them being sorts that are non-endangered, sourced from sustainably managed forests.

### LONGEVITY IN DESIGN

We place the highest importance on creating products with a long lifespan in both their expression and quality. We source our raw materials with the greatest care and view sustainability as an integral part of our Scandinavian design ethos. Craftsmanship is a focal element in our design process while valuing the functional, long-lasting properties of our designs. To ensure that our designs have a high durability that will allow for them to be used in your home for many years into the future, extensive testing is at the heart of our development process alongside producing in accordance with ethical guidelines and environmental requirements.

### CERTIFICATES & TESTING

As an integral part of our design process, most of the furniture within the Muuto collection has passed extensive testing within the areas of strength and stability across various levels of the ANSI/BIFMA and EN-tests. As part of the aim to create products that lessen the impact on the environment, Muuto also participates in Declare with a selection of furniture being Living Building Challenge Compliant. Adding to that, a number of Muuto furniture designs are Global GreenTag GreenRate Level C certified.

We view responsible manufacturing processes as integral to our design philosophy. All manufacturers and suppliers of Muuto adhere to the United Nations principles of human rights, anti-corruption and non-use of child labor, as outlined in the United Nations Global Compact.

Visit Muuto.com/Quality-Environment to learn more about our design approach, tests, certificates and more.
