

WORLD'S BEST STACKING CHAIR

Engelbrechts

Engelbrechts is a Danish company creating beautiful, sculptural and functional furniture, especially dedicated to the subject of seating. We are a leading supplier of conference furniture with more than 20 years of experience and offer a variety of solutions to match your needs. We hacked the stacking chair back in 1996 and it is still the best in the category.

1000 chairs in 14m²

Erik Magnussen hacked the stacking chair in 1996 when he minimized the stacking height, making CHAIRIK the ultimate stacking chair. With this extraordinary stacking performance, up to 45 chairs on each trolley, CHAIRIK is a real space saver. Made for audiences that come and go and with the stacking performance, you can store up to 1000 CHAIRIK chairs in just 14 m². The clean and minimalist look even creates a sculptural expression while stacked.

CHAIRIK the perfect chair for your needs

- Super stacker (1000 chairs in 14 m²)
- 21 layers of veneer and glue paper
- On/off magnetic seat upholstery
- 26 standard models and endless configurations
- Individual customization to meet your special requests
- Easy to line up in a conference setting
- Extremely durable
- No pressure on the spine = extreme seating comfort
- Highest level of fire proof certificates
- EN 16139: 2013 / BS 5852:1990 / EN 1021-1:2006

SCHACKENBORG CASTLE, DENMARK. CHAIRIK 101.

ENGELBRECHTS SHOWROOM, DENMARK. CHAIRIK XL 121.

Unique magnetic seat upholstery

With the removable on/off seat upholstery you can easily change the look of the chair from an unupholstered to an upholstered chair. With pre-mounted magnets you achieve ultimate flexibility to change the feel and look of the chair. The removable seat upholstery is easy to clean and change if needed.

Time saving: 1800 chairs can be removed in one hour by 6 people.

WIENER HOFFBURG, AUSTRIA. CHAIRIK HIGH 104.

Easy to line up

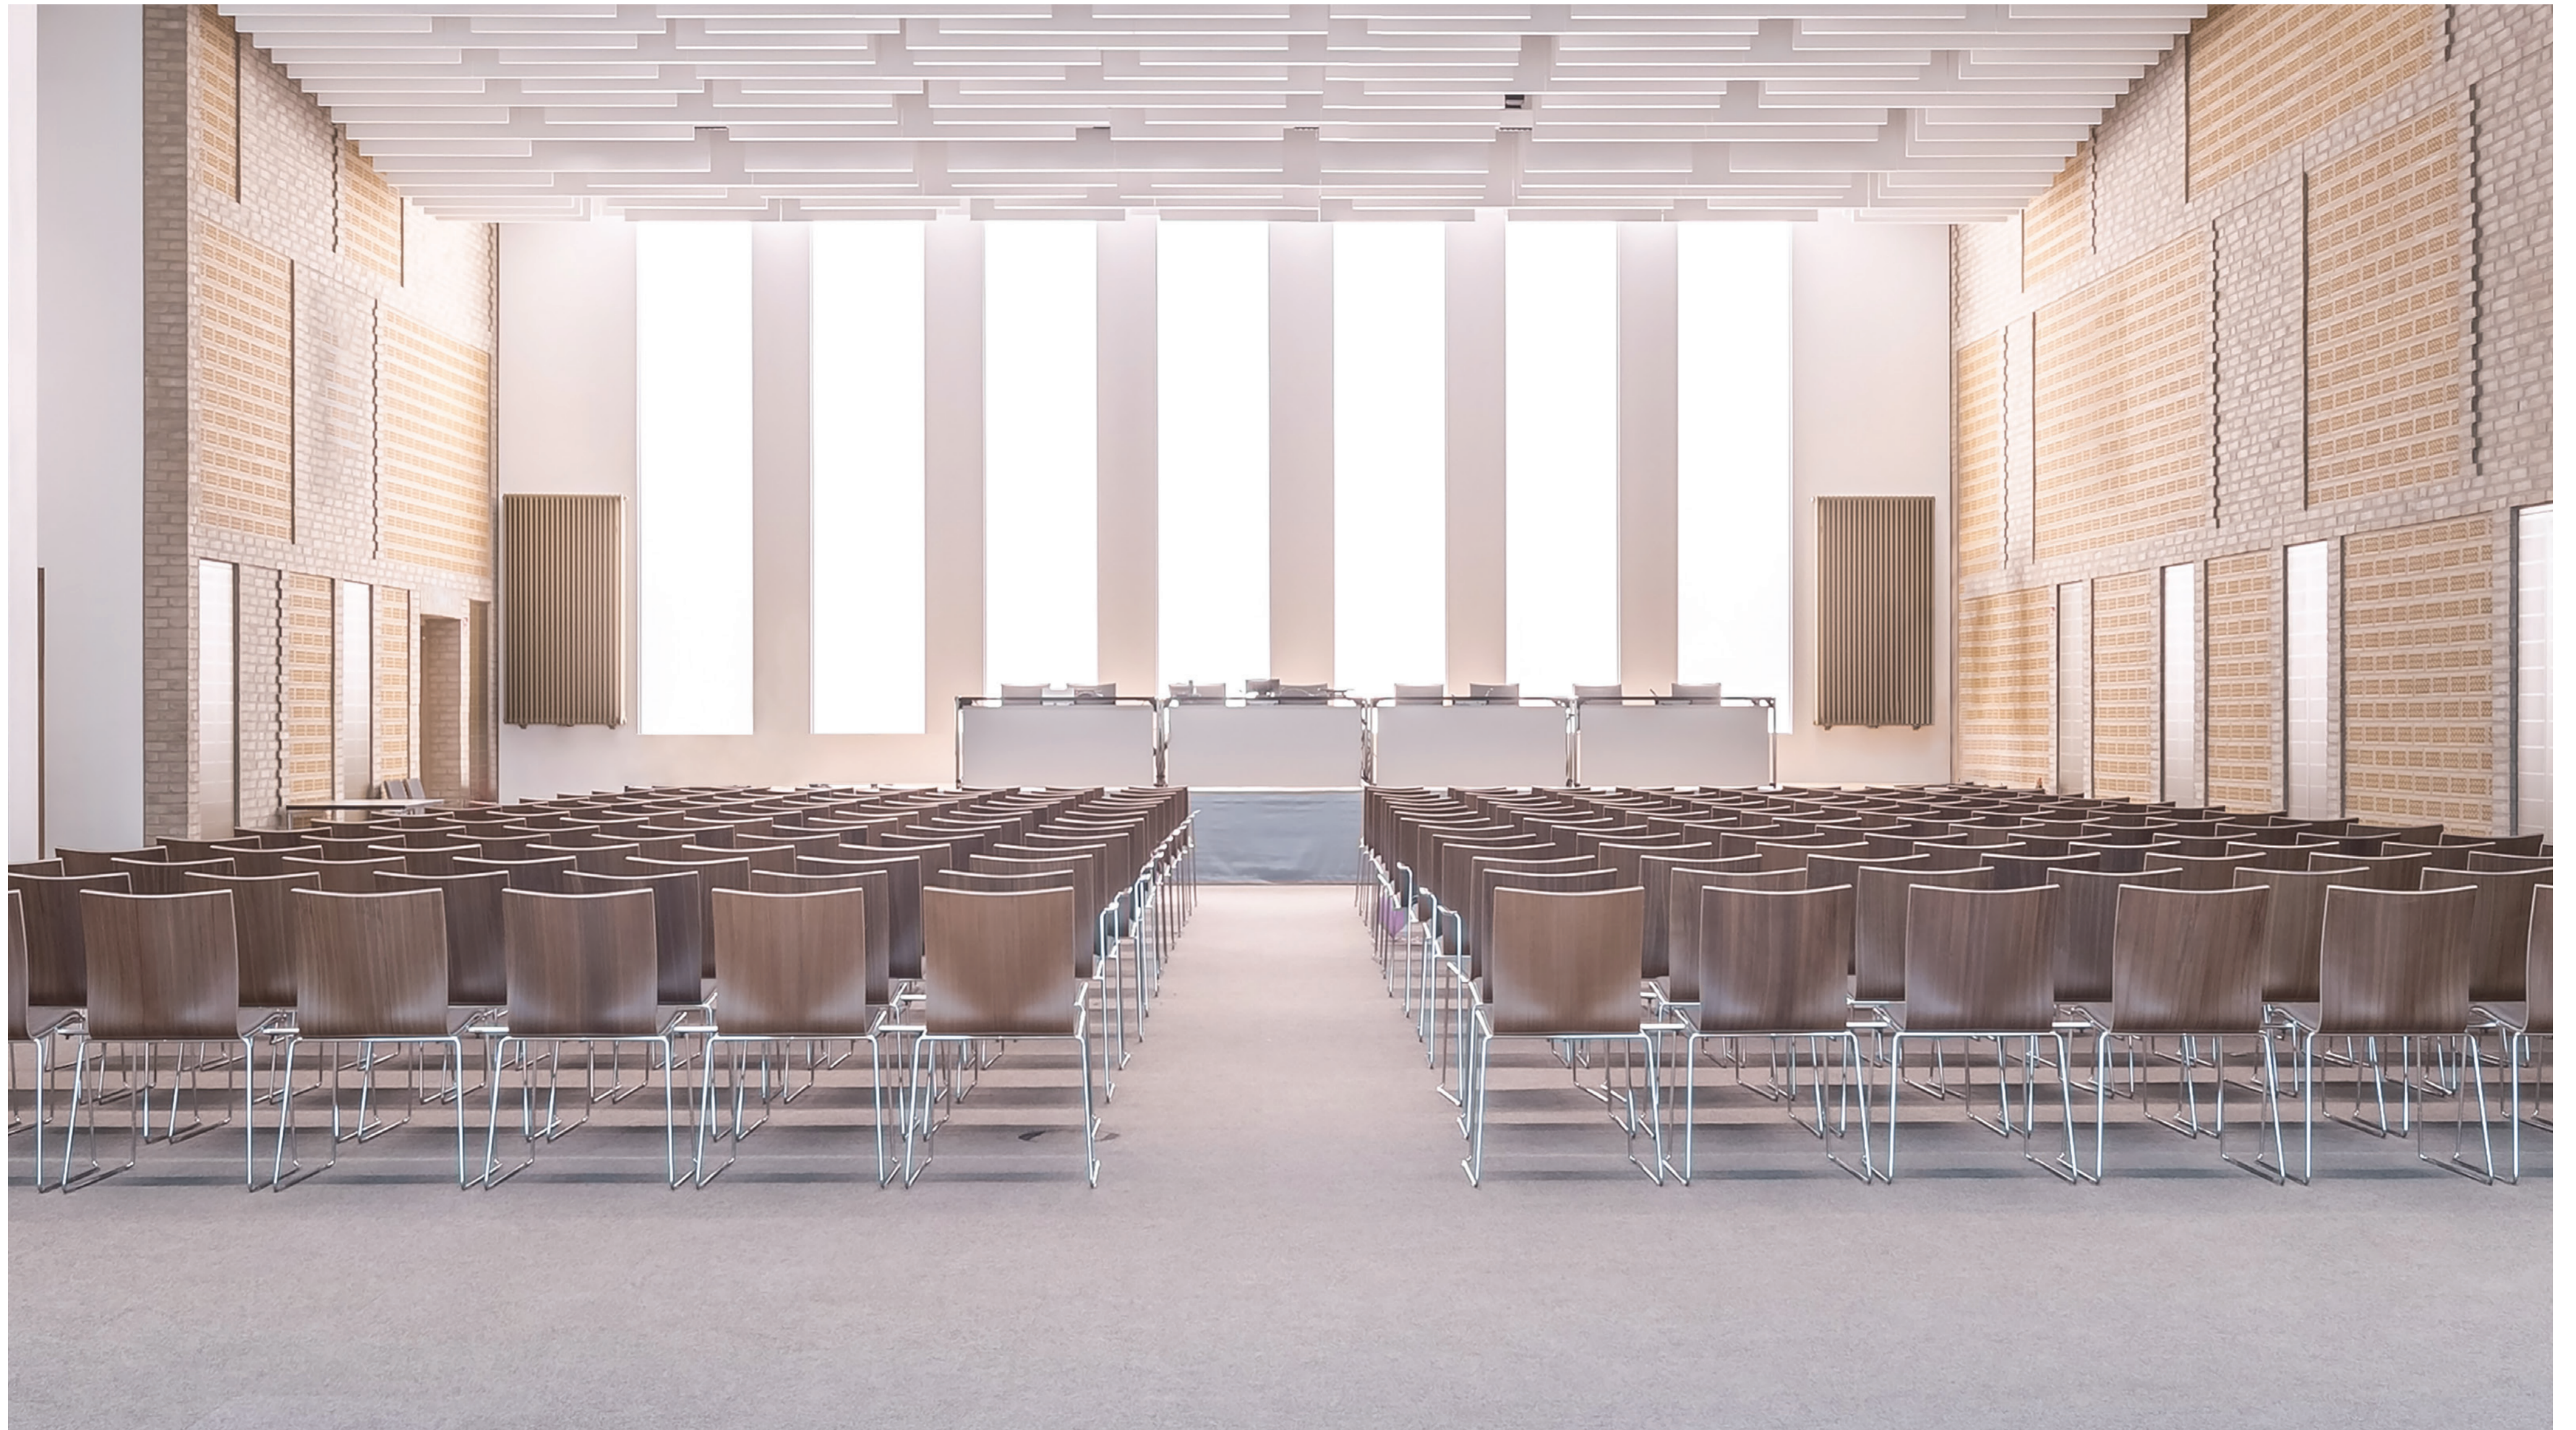

With 2 different linking devices the chairs can effortlessly be lined up on straight rows. Choose between a fixed or a removable linking device. Add our numbering system for easy navigation on the rows.

Writing tablets for all models

For the ideal learning environment, the chair can be configured with a writing tablet to ensure comfortable working conditions in the educational setting. Writing tablets can easily be mounted and demounted on all standard models without any pre-preparation. Store the chairs and tablets on transport trolleys to secure the easy line up to save time and labour costs.

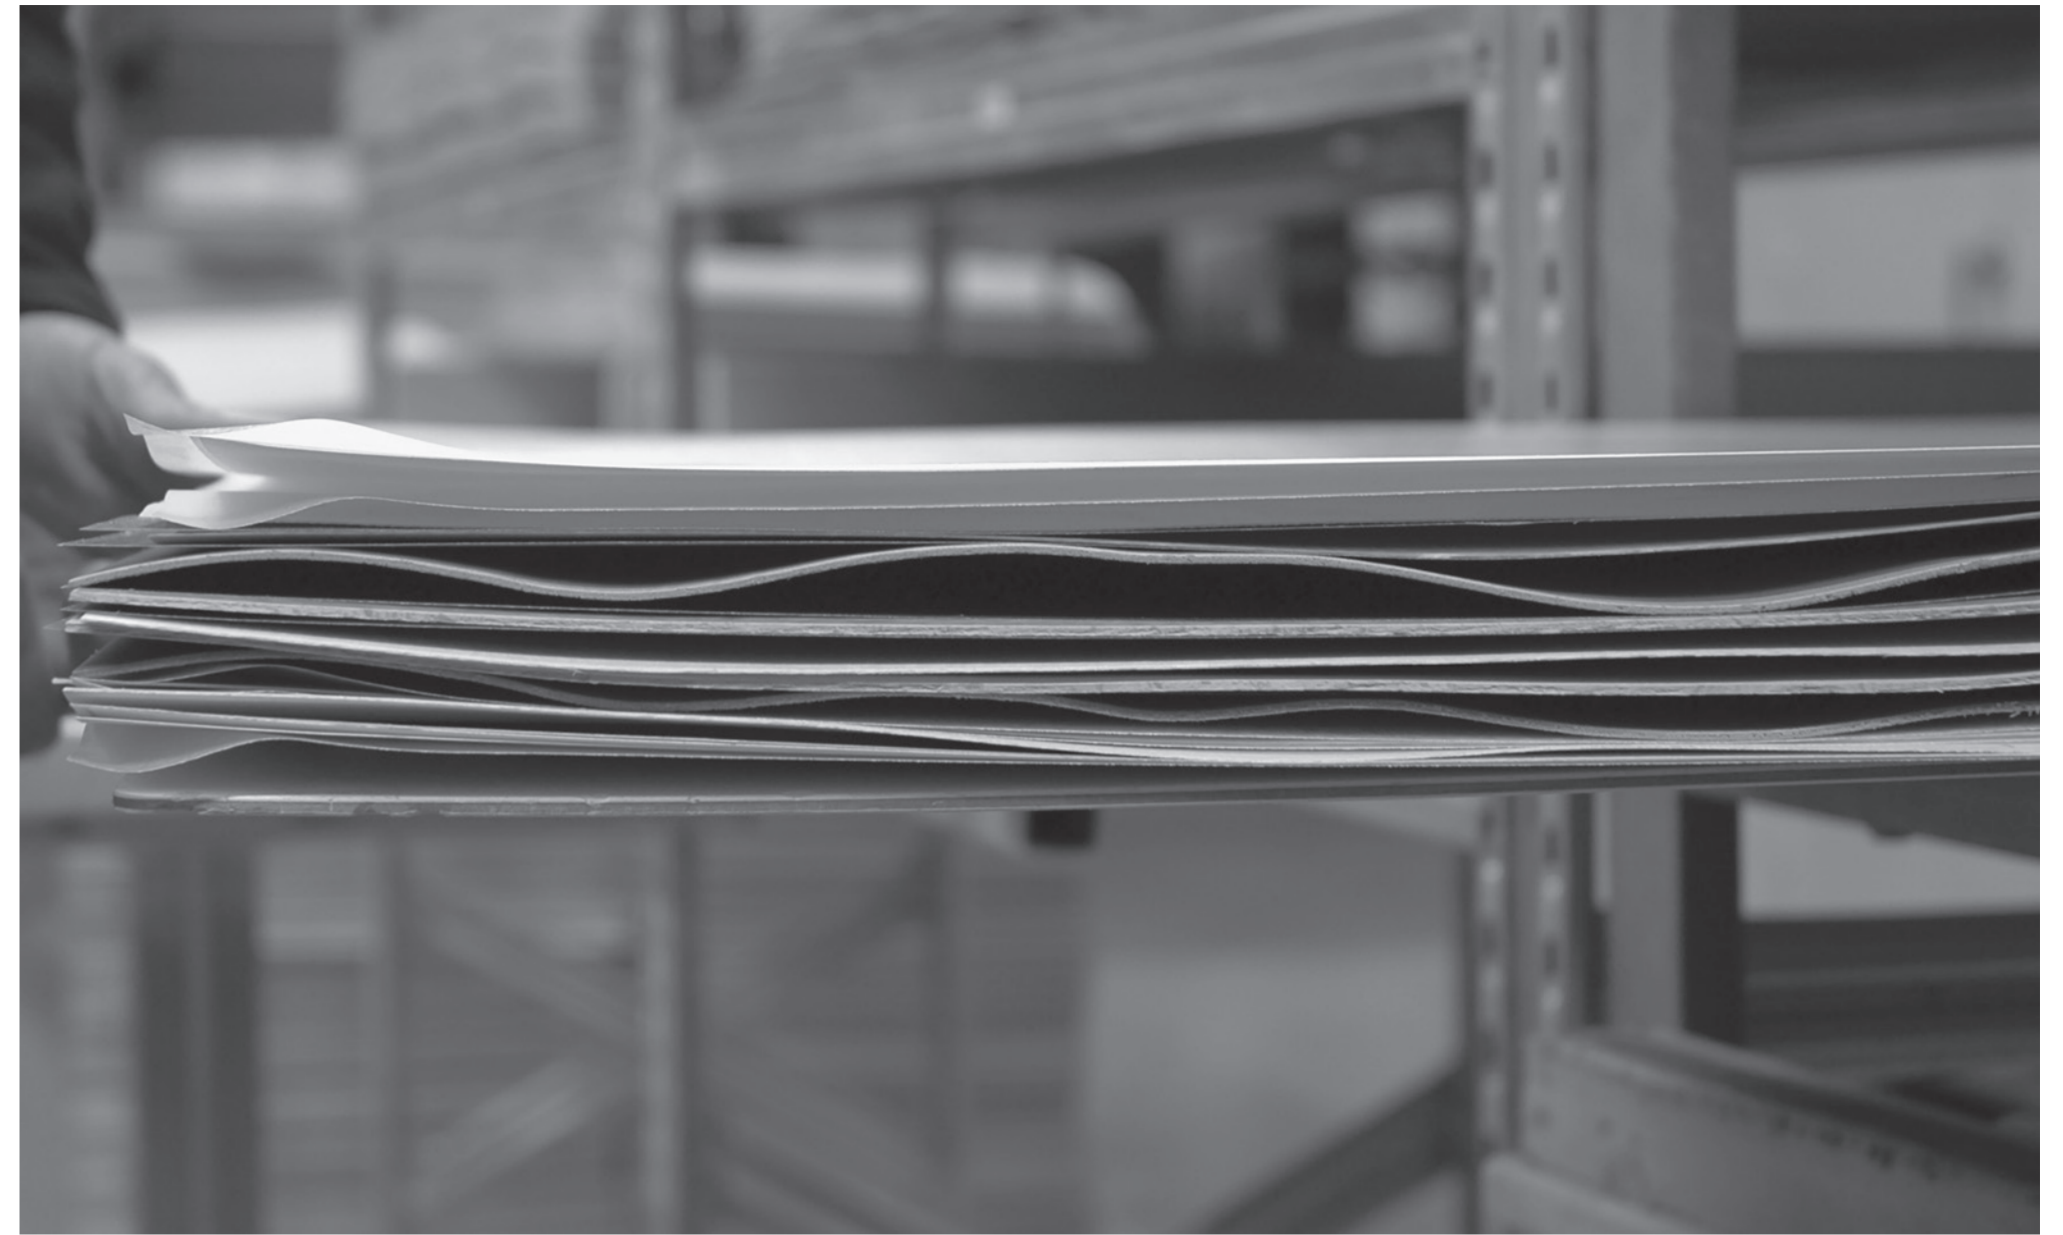

Regardless the size of the project, Engelbrechts can help set the scene. From the small set-up in the canteen to large conference centres with 1000+ chairs - we have the know-how, the products and the design to suit your project.

KVH, GERMANY. CHAIRIK XL 127.

21 layers of veneer securing extreme durability

Inspired by a tray in bent wood and melamine, Erik Magnussen designed the now iconic melamine version during his lunch break at the factory in Sweden. Magnussen chose this as the ultimate material for an especially hard-wearing CHAIRIK, and the first ever chair in melamine was born. The melamine version is six times more durable than a standard lacquered version and easy to clean.

Tailor made solutions to match your personal needs

Give your guests an extraordinary experience with state-of-the-art design and comfort.

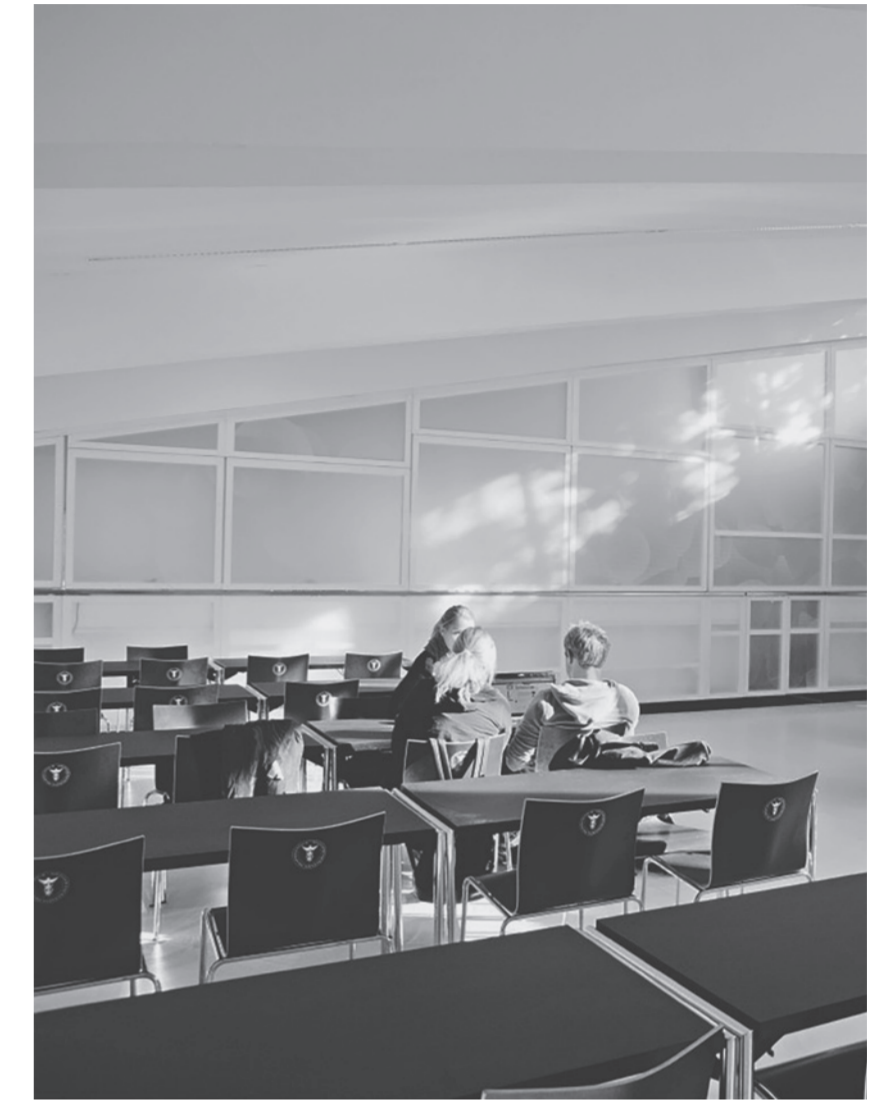

ALLIANZ, GERMANY. CHAIK 109.

When chairs turn to bench

Flexible bench system with 2 - 6 seats, with or without armrests and optional side table. Available with seat upholstery, inner side or full upholstered in two different thicknesses.

Add your own logo

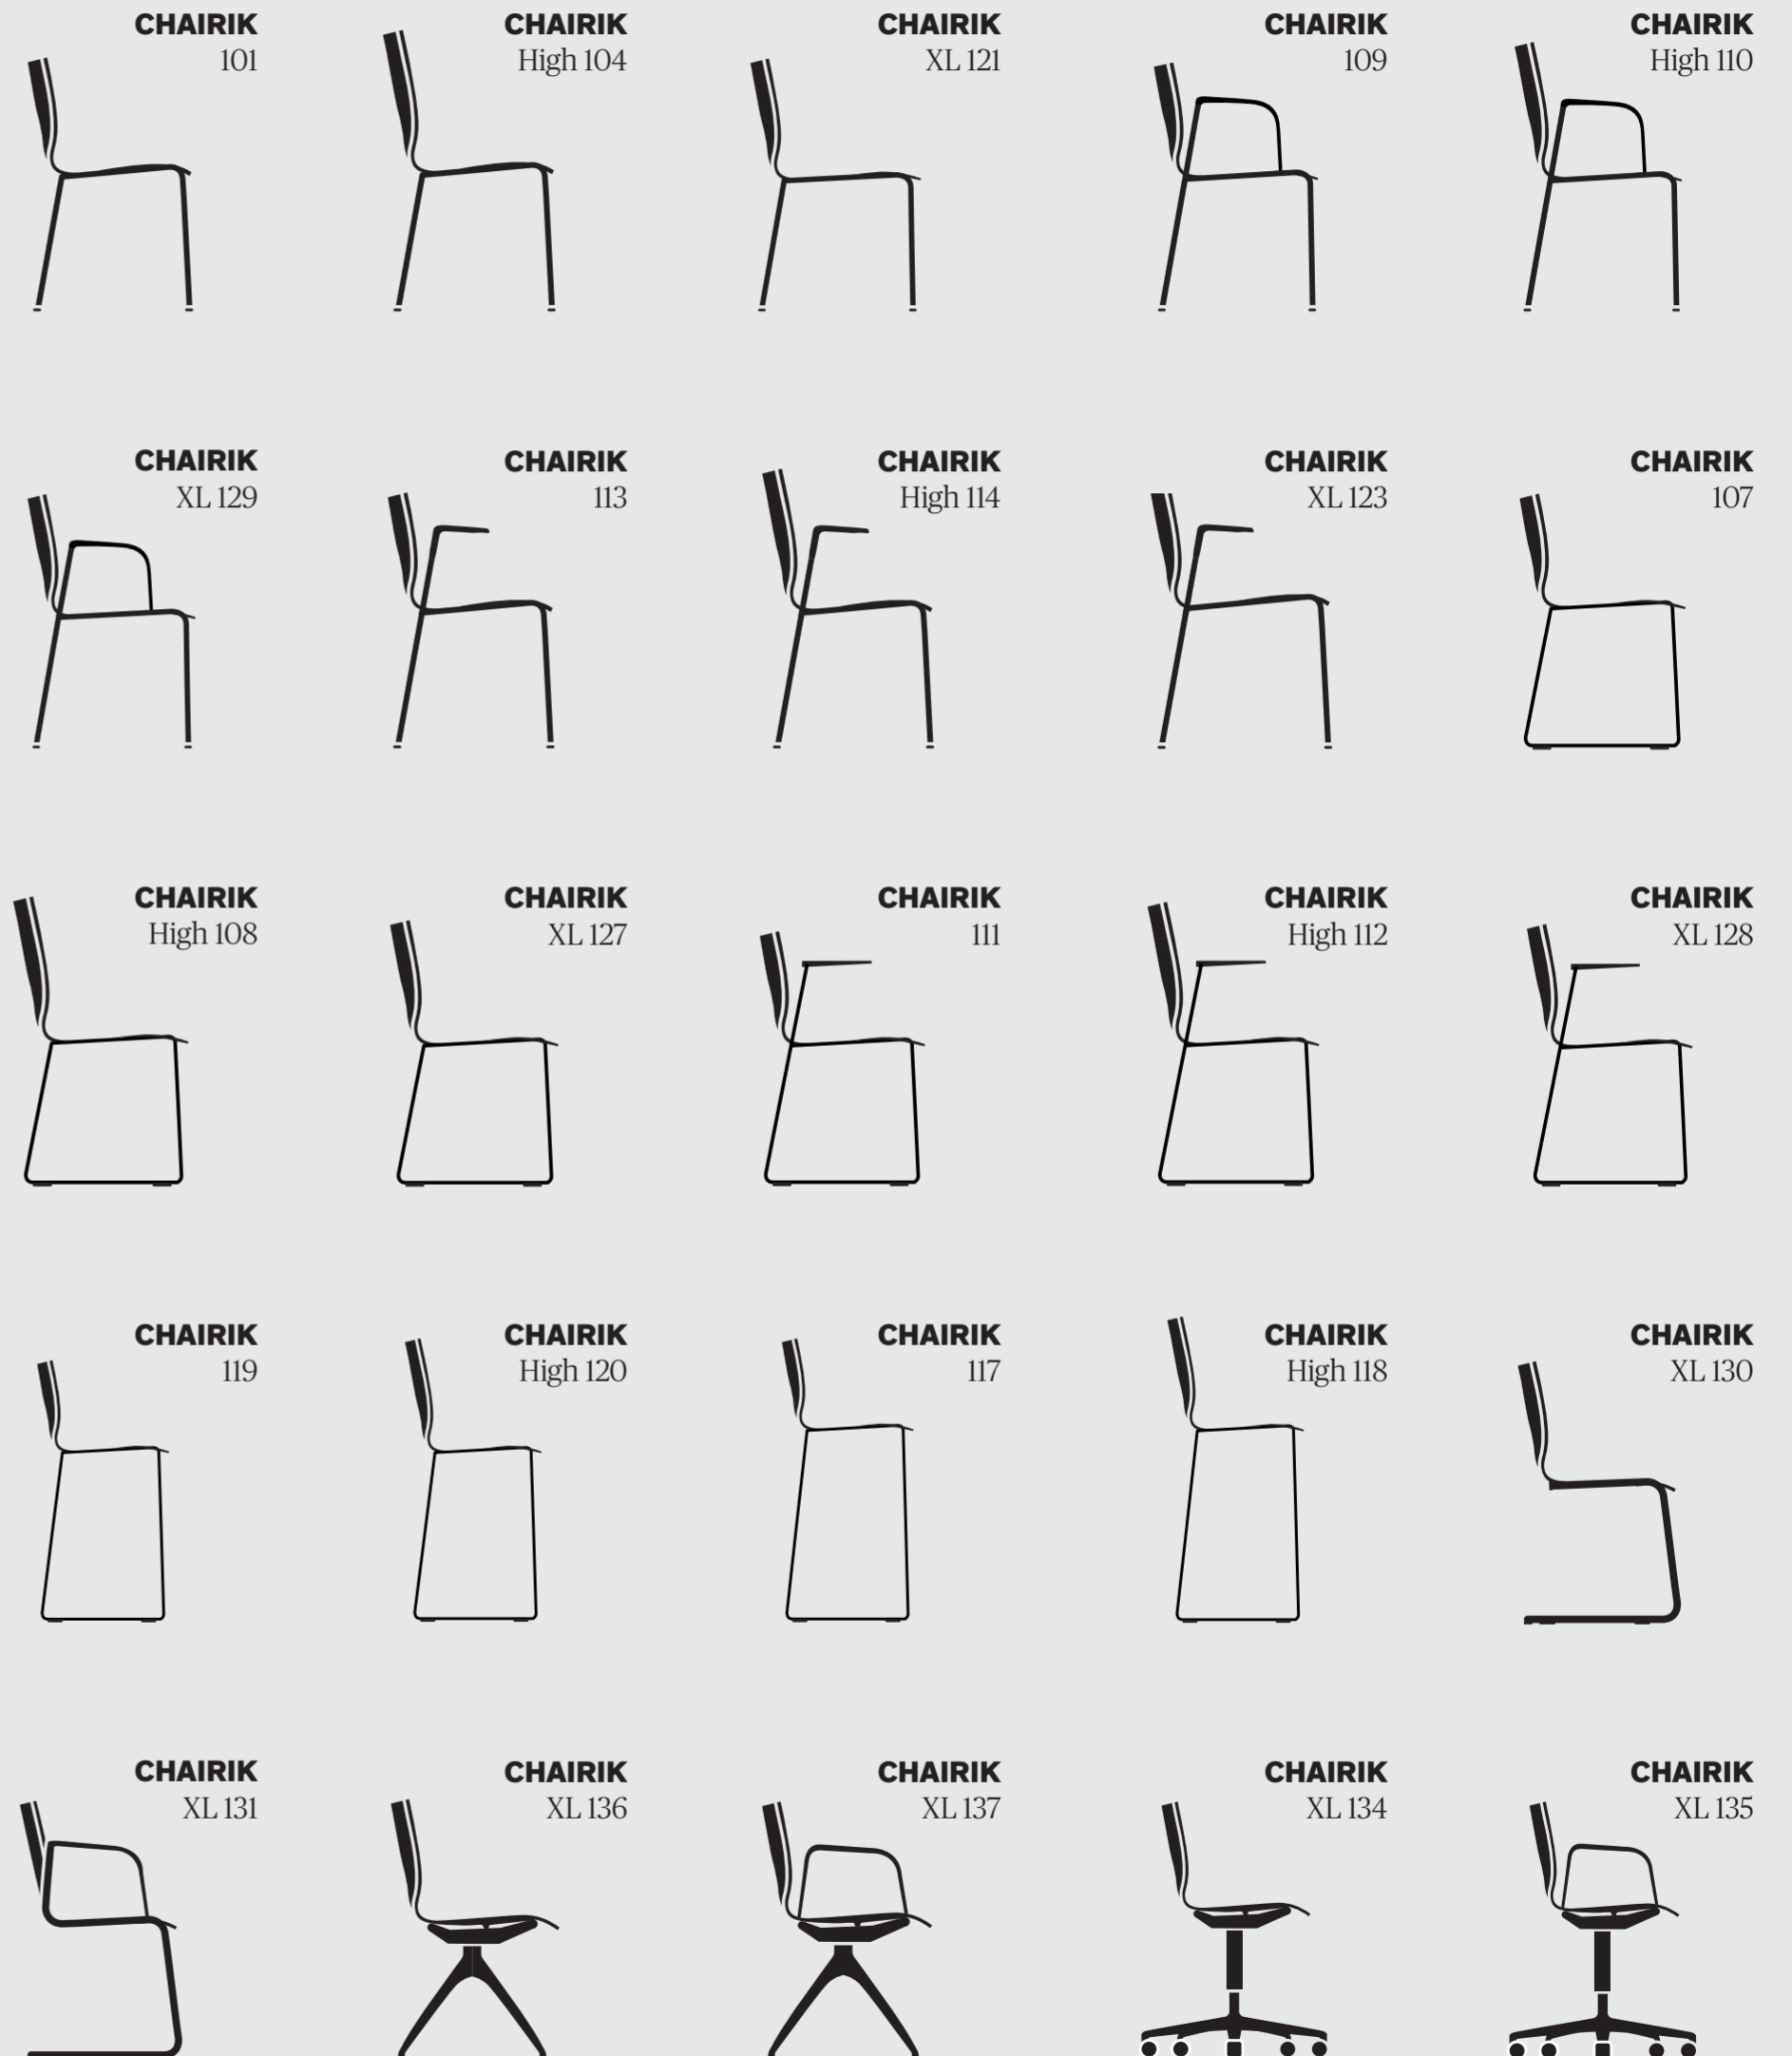

The technique for the melamine chairs makes it easy to customize the chair with your own logo, graphic design or company colour.

Choose your configuration

CHAIRIK is available in 25 different models and a bench series making it a versatile series perfect for office environments, conferences settings, canteens and learning.

- 3 heights
- 3 shell sizes
- 4 upholstery options
- On/off seat upholstery
- 6 different frames
- 2 different armrest options
- 2 linking device options
- Option of writing table
- Chair suspension

CHAIRIK COLLECTION

AXEL TOWERS, DENMARK. SZENE 301.

SZENE auditorium chair

Together with Lundgaard & Tranberg Architects, Engelbrechts has developed an auditorium chair for the auditorium in Axel Towers. The chair appears modest in size, but is extremely spacious and allows a variety seating positions. Ideal for all auditorium and the exclusive learning environment.

KEVI: Ideal for conference halls, canteens and learning.

Designed by Danish architect Jørgen Rasmussen in 1958 the KEVI chair has been around for decades and known for its clean lines and minimalist design. The swivel chair is designed with one principle idea in mind: the better you sit, the more you get done. The idea has been transformed in 2016 to a four-legged version, and the series now include a stackable chair ideal for conference halls, canteens and learning. A beautiful combination of history and contemporary aesthetics.

Many people recognize the chair from an educational perspective and the transformation to a four leg version ideal for canteens as well as conference is well executed. The chair is light and easy to move and stacks beautifully on a trolley.

KEVI Table

FOLDIT 606 & CHAIRIK 109.

FOLDIT table, easy to store.

FOLDIT is an elegant and functional folding table designed by Erik Magnussen. FOLDIT does not look like a folding table, yet retains the advantages of one; it can be brought out or put away in a few seconds and does not compromise on stability or functionality. FOLDIT is perfect for meeting and conference rooms, teaching facilities, and function rooms. It is easy to store on a transport trolley with room for 10 tables.
